EXCELLENCE IN MANUFACTURING, INNOVATION AT HEART

At Aqua-fide, we take pride in being a high-end producer of end-to-end Home Solution products. From the start, our vision has been clear: to represent precision, performance, and premium design, all backed by robust in-house manufacturing and a firm commitment to international quality standards.

Our operations are built on principles we deeply value – transparency, ethical business practices, and a constant drive for improvement. We've implemented stringent quality control processes at every stage – from raw material sourcing and manufacturing to final inspection and packaging – ensuring that every product we deliver stands as a benchmark of strength, functionality, and design integrity.

We believe in being customer-first, always. We make it a point to listen to the market and respond with agility to regional demands. Our dedicated R&D and product development teams work hand-in-hand with designers, engineers, and partners to craft solutions that are not only elegant but also smart, sustainable, and future-ready.

Doing business the right way matters to us. That means maintaining a safe, clean, and ethical workplace, reducing our environmental footprint through responsible manufacturing, and fostering long-term, trust-driven relationships with both our suppliers and customers.

With a global outlook and the ability to adapt locally, Aqua-fide has earned the trust of architects, developers, and retailers across key markets – as a brand that delivers comprehensive, high-quality solutions with craftsmanship, innovation, and care at its core.

WATER HEATERS WITH AN ADVANTAGE

To give the customers best of the features and safety, Aqua-fide water heater presents complete range of world class safety, Life, Savings and many other parameters

SAFETY ADVANTAGE

Multi-Function Safety Valve:

The safety valve is designed to automatically relieve and discharge water, in case the pressure overshoots the preset limits.

Double Safety Thermostat:

Dual overheating control mechanism cuts-off power automatically even if primary cut-off fails.

LIFE ADVANTAGE

Enamel MS tank:

Enamel technology increases the life of the inner tank. The lining is stronger and more corrosion resistant than any other in the industry.

Enamel Coated Element:

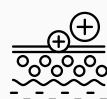

Scale and sediment build-up on the surface of the element can lead to premature failure. Aqua-fide Enamel Coating helps to prevent scale formation and extends the life of the heating element.

SAVINGS ADVANTAGE

High Density Insulation:

PUF Insulation to minimize heat loss and maximize energy savings.

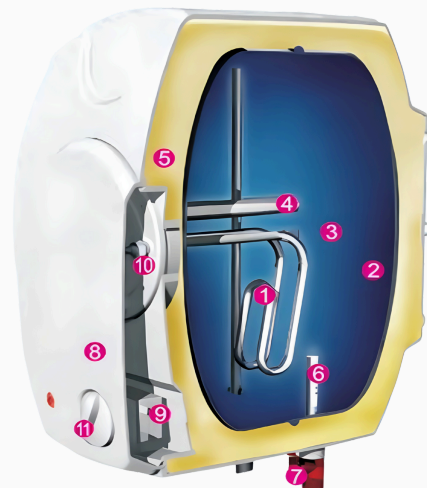

Cathodic Protection:

The anode rod in Tank uses a special cathodic action to fight Corrosive elements and thus prolong the life of the water heater.

KNOW YOUR WATER HEATER

Key components of Aqua-fide water heaters and the technical advancements we've made to ensure they provide safe, reliable, and energy-saving solutions for consumers.

- 1 High Quality Heating Element**
Delivers exceptional heating efficiency, extended durability, and minimal energy loss for long-term performance.
- 2 Heavy Gauge Tank**
Constructed from 1.8-2 mm ultra-thick cold-rolled steel for superior strength and durability.
- 3 Blue Diamond Enamel Coating**
All models feature advanced rust and corrosion protection with a 0.5 mm Blue Diamond coating, offering significantly higher resistance than standard inner tank designs.
- 4 Heavy Duty Anode Rod**
With Steel core, protects extra protection for tank.
- 5 High Density Foam Insulation**
CFC-free insulation with a comprehensive protection design, up to 25% thicker than standard, effectively minimizing radiant heat loss.
- 6 Cold Water Inlet With Whirlflow**
Designed to prevent direct contact between cold and hot water, enabling faster heating and maximizing energy efficiency
- 7 Multi Function Safety Valve**
Automatically releases water when temperature or pressure exceeds preset limits, ensuring safety and quick activation under pressure conditions from 0.005 MPa to 0.8 MPa.
- 8 Service Panel**
Features an anti-scratch, immersed lock design for easy and convenient part replacement.
- 9 Adjustable Temperature**
Allows temperature setting from 25 - 75°C
- 10 5 Bolt Flange**
Easier product maintenance
- 11 KNOB**
Allows easy temperature adjustment for optimal heating.
- 12 Temperature Meter**
Displays the current water temperature for precise monitoring and control.

01

AQUA - ITXX

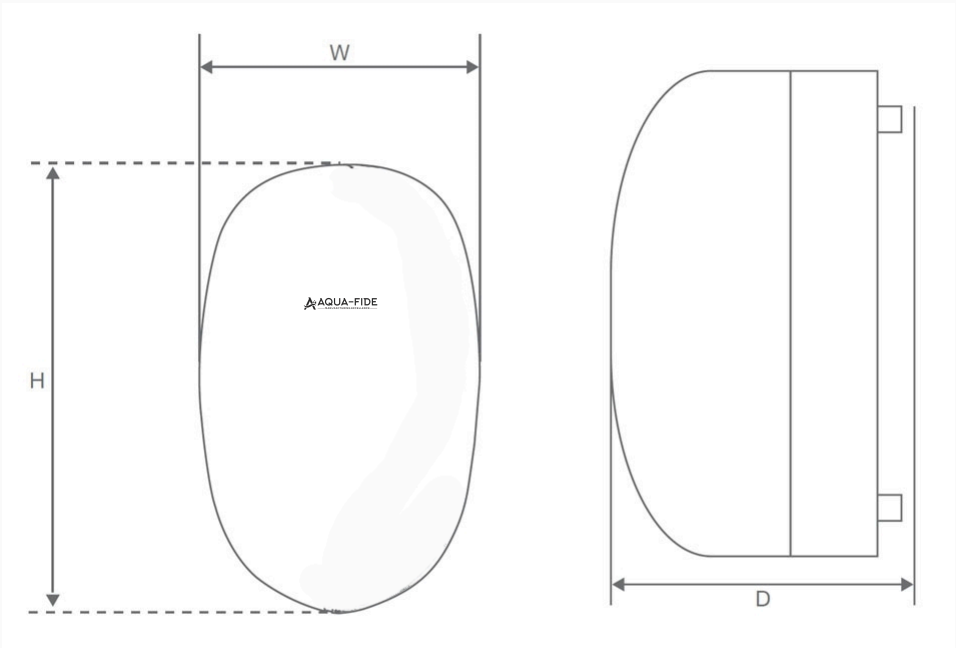

The AQUA-ITXX available in 3L & 5L capacities, delivers instant hot water with unmatched efficiency and safety. Featuring a corrosion-resistant stainless steel tank for long-lasting performance, this compact heater is housed in a high-quality PP body for added durability. Equipped with advanced safety protection features, it ensures secure operation even under varying conditions. Its sleek, space-saving design makes it ideal for modern kitchens and bathrooms, while the rapid heating element provides hot water in seconds.

TECHNICAL SPECIFICATION

Model		AQUA-IT03	AQUA-IT05
Capacity (Litres)	Litres	3	5
Heating Element (KW)	KW	3 / 4.5	3 / 4.5
Heating Element Mateial		Copper	
Voltage/Frequency (V/Hz)		230~/50Hz	
Operating Temperature (oC)		25-75	
Inner Tank		SS 304 (0.7 mm Thick)	
Outer Body		PP	
Rated Water Pressure (Bar)	Bar	6.5	
Safety Devices		PRV, Thermostat, Thermal Cut-out	
Thermal Insulation		Glass Wool	

DIMENSIONS

Model		AQUA-IT03	AQUA-IT05
Width (W)	mm	192	230
Height (H)	mm	420	500
Depth (D)	mm	192	240
Net Weight	Kgs	2.15	2.86
Gross Weight	Kgs	2.65	3.74

02

AQUA - SQXX

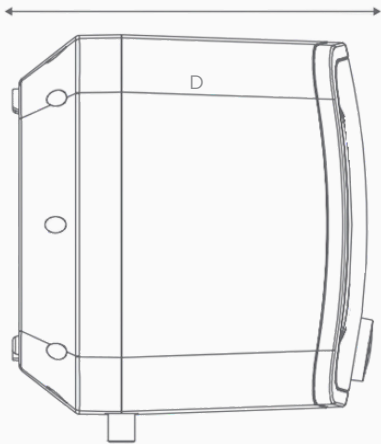

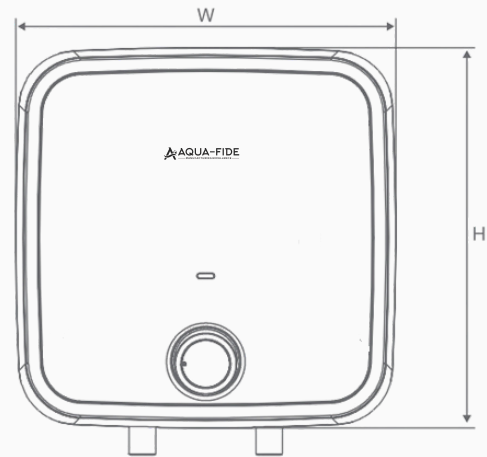

Available in 6L, 10L, 15L, and 25L capacities, the AQUA-SQXX is built for long-term durability and efficient performance. It features a mild steel tank with glass lining to resist corrosion, and high-density PUF insulation for improved heat retention and energy savings. The copper heating element ensures quick and reliable heating, while a double thermostat and safety valve offer enhanced protection. Finished with a sleek ABS outer body, it combines lasting performance with a modern, premium look.

TECHNICAL SPECIFICATION

Model		AQUA-SQ10	AQUA-SQ15	AQUA-SQ30
Capacity	Litres	10	15	30
Heating Element	KW	2	2	2
Heating Element Material		Copper		
Voltage/Frequency	V/Hz	230~/50Hz		
Operating Temperature	°C	25-75		
Inner Tank		Glass Lined MS Tank		
Outer Body		ABS Plastic Body		
Rated Water Pressure (Bar)	Bar	8		
Safety Devices		MFSV, Thermostat, Thermal Cut-out		
Thermal Insulation		Injected PUF		
BEE Rating		5 Star Rated		
IP Rating		IPX4		

DIMENSIONS

Model		AQUA-SQ10	AQUA-SQ15	AQUA-SQ25
Width (W)	mm	380	410	440
Height (H)	mm	420	440	425
Depth (D)	mm	320	375	400
Net Weight	Kgs	8.63	9.73	13.4
Gross Weight	Kgs	11.29	12.79	15.68

03

AQUA - VTMXX

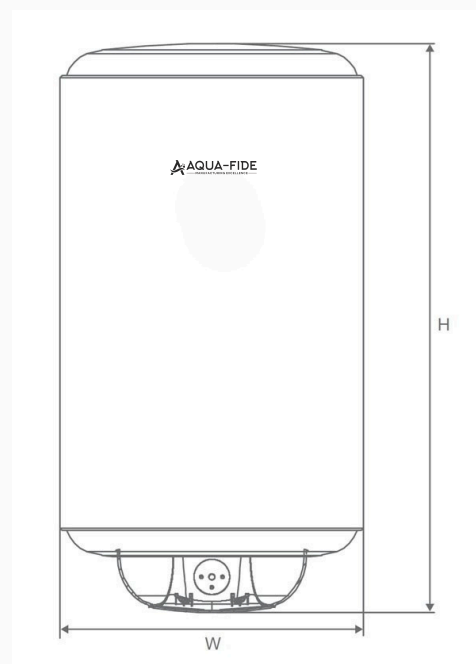

Designed for high-demand usage, the AQUA-VTMXX comes in 15L, 30L, 50L, 70L & 100L offers powerful storage water heating with long-lasting performance. It features a robust mild steel tank with a glass-lined coating to resist corrosion and extend durability. The pre-coated metallic outer body adds an extra layer of protection while delivering a premium look. High-density PUF insulation ensures excellent heat retention and energy efficiency. Built-in safety components such as the Multi-Function Safety Valve (MFSV), thermostat, and thermal cutout provide reliable protection for everyday use. Ideal for both residential and commercial applications, the AQUA-VTMXX ensures a steady supply of hot water with complete peace of mind.

TECHNICAL SPECIFICATION

Model		AQUA-VTM15	AQUA-VTM30	AQUA-VTM50	AQUA-VTM70	AQUA-VTM100
Capacity	Litres	15	30	50	70	100
Heating Element	KW	2	2	2	2	2
Heating Element Material		Copper				
Voltage/Frequency	V/Hz	230~/50Hz				
Operating Temperature	°C	25-75				
Inner Tank		Glass Lined MS Tank				
Outer Body		Pre Coated Metallic Body				
Rated Water Pressure	Bar	8				
Safety Devices		MFSV, Thermostat, Thermal Cut-out				
Thermal Insulation		Injected PUF				
IP Rating		IPX4				

DIMENSIONS

Model		AQUA-VTM15	AQUA-VTM30	AQUA-VTM50	AQUA-VTM70	AQUA-VTM100
Width (W)	mm	330	370	460	460	460
Height (H)	mm	480	570	680	870	1050
Net Weight	Kgs	8.78	11.98	18.53	23.05	27.32
Gross Weight	Kgs	10.27	14.73	21.26	27.12	29.92

04

AQUA - HTMXX

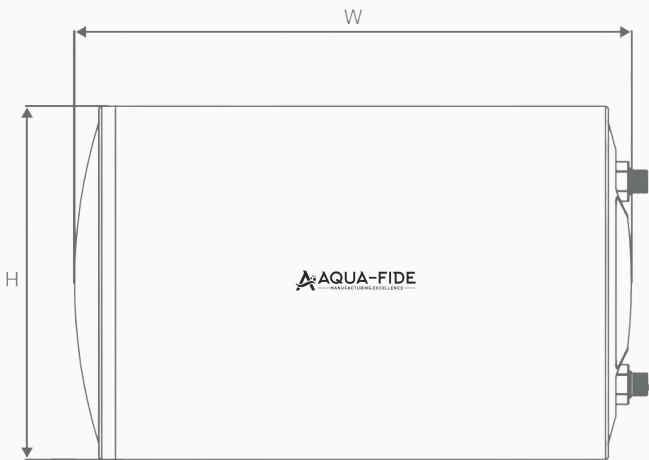

Built for spaces that require a horizontal installation, the AQUA-HTMXX Horizontal Storage Water Heater combines efficiency with durability. Available in 15L, 30L, 50L, 70L, 100L, It features a robust mild steel tank with a glass-lined coating for enhanced corrosion resistance and extended lifespan. The pre-coated metallic outer body ensures added protection along with a premium appearance. High-density PUF insulation helps retain heat for longer durations, boosting energy savings. Integrated safety features such as the Multi-Function Safety Valve (MFSV), thermostat, and thermal cutout offer dependable protection. Ideal for both residential and commercial settings with space constraints, it ensures a consistent and safe hot water supply.

TECHNICAL SPECIFICATION

Model		AQUA-HTM15	AQUA-HTM30	AQUA-HTM50	AQUA-HTM70	AQUA-HTM100
Capacity	Litres	15	30	50	70	100

MAMMOTH HEATING SOLUTIONS

Mammoth - A Trusted American HVAC Brand, With manufacturing in the USA and China, Mammoth offers one of the widest ranges of HVAC solutions for diverse applications. Our advanced heat pump range, backed by a strong global presence, delivers reliable, energy-efficient performance across residential, commercial, and industrial sectors.

All in One R290 Heat Pump

Split Type Heat Pump

Pool Heat Pump

A2W Commercial Heat Pump

W2W Commercial Heat Pump

High Temp. W2W Heat Pump

"Turn On the Warmth.
Turn Off the World."
